COPPER MAGNATE SENT TO JAIL

In Contempt For Not Producing Company's Books in Court.

A DIRECTOR ALSO INVOLVED

Both Men Are Alleged to Have Permitted the Spiriting Away of Books Under Subpoena In the Case Against F. Augustus Heinz.

New York, June 2.—George Baglin, vice president of the United Copper company, was taken to the Tombs prison, and must remain there, under an order of Judge Lacombe, of the United States district court, until the missing books of the company, which contain the evidence upon which the federal district attorney seeks to convict F. Augustus Heinz, are produced. A similar punishment also hangs over Sanford Robinson, a prominent director of the company.

Both men are alleged to have permitted the spiriting away of the books that were under subpoena. Baglin testified before the grand jury that he had overheard Robinson and one of the Heinze brothers conspiring to remove the books and had interposed no objection.

"Nothing remains for me to do but to commit you for contempt," said Judge Lacombe after hearing Baglin's admission. "You had no right to stand idly by while men were plotting the removal of books wanted in a grand jury investigation. An officer or an employe cannot so act with impunity."

Baglin was visibly affected by the sentence of the court. He was allowed to communicate with his wife and lawyer, and then he was led to the Tombs.

Robinson's case was next taken up by the court. It was shown that he had refused to testify before the grand jury regarding his alleged conversation with one of the Heinze brothers, maintaining that both he and Heinze were attorneys for the company and that therefore their conversation was privileged.

Judge Lacombe declined to accept this plea. "Members of the bar," he said, "who choose to become officers or directors of companies and who are accused as directors of conspiring to violate the law, cannot evade the challenge by claiming to be members of the bar. If the minutes of the grand jury show that the situation is as I now understand it to be, I shall certainly commit Robinson for contempt."

PROMINENT MASONS HERE.

Looking for a Site for the Proposed Masons Home.

On Wednesday evening the committee of masons appointed by the Grand Lodge of Pennsylvania to look up a site for the proposed Masonic Home arrived in Bellefonte and were guests over night at the Bush House. It was composed of the following gentlemen from different parts of the state: Hon. Geo. B. Orlady, James W. Brown, Edgar Tennis, David A. Sandey, Wm. L. Gorgas, Henry Williams, Spencer Gilbert, James Krause, Hon. Lewis Waters and John D. Croft. They were met at the train by a local committee from Lodge No. 268, of which Col. J. L. Spangler is chairman.

Thursday morning the party of distinguished gentlemen were taken in automobiles to State College where they took dinner at the Nittany Inn. Later they inspected the College buildings.

During the afternoon they were taken to the Moses Thompson homestead, at Centre Furnace, and shown this as a site for the home and orphanage which is to cost in the neighborhood of $3,000,000. The committee was shown that they could secure five hundreds acres of the best and most productive land in Pennsylvania. On the site there is a large spring of never failing water and this combined with many other natural conveniences would make it an ideal spot or location of an institution of that kind. Its close proximity to the College would certainly permit the children of the orphanage to get a College education at a very small expense which, after all, should be the aim and object of an institution which has the destiny of children at heart. Then too Centre county is centrally located, geographically, and is surrounded by charming environments such as fertile acreage, copious streams and mineral wealth of inestimable value. After investigating the Thompson site the committee was returned to State College where a battalion drill took place under an officer of the United States Army. From there they were brought back to Bellefonte, reaching here in time to take supper at the Bush House. They left on the night for Williamsport where Friday they went over the site offered by the citizens of Montoursville. Saturday they visited Muncy, Harrisburg and other points.

Details of Accidents Will be Made Public.

Recognizing the demand for information as to wrecks and other accidents, the Pennsylvania Railroad company has issued a "Notice to be made Public" setting forth the conditions under which news is to be made public. Stated in brief, these are that the essential facts will be communicated through statements issued from the general offices of the company at Philadelphia and Pittsburg and will be given out at the offices of all general and division superintendents. The notice pledges the company to making public all known facts. A paragraph in the notice says: "The management of this company realizes that upon occasions of accident, it is of the greatest importance that the number and names of any who may be injured should be made known immediately. This is all the more urgent as a means of relieveing the anxiety of the families and friends of passengers who may be on the train. The railroad company is, of course, in the best position to obtain this information, and the newspapers may be assured that the company will make public such as it can obtain freely and fully."

Dizzy Drop From Fifth Story Window.

The telephone service at the Hotel Updegraff 'Williamsport' was put out of commission for a short time this morning as result of the wires being torn from their connections by the person of George Biehl, bell boy, residing at No. 349 Adam street, alighting upon them after a wild plunge from a fifth story window. George commonly known as Tuby, finding the key to one of the fifth floor rooms was missing and desiring to gain admission to the same without bothering the office with the request for another key, entered the next room and with the help of a piece of rope attached to the window ledge attempted to swing himself upon the adjoining window. The height to which he was elevated made the lad dizzy and releasing his hold on the rope he plunged headlong toward the skylights in the hotel court. After falling four stories he struck the extending telephone wires, which broke his fall so successfully that the venturesome youth escaped uninjured. Although badly frightened young Biehl resumed his duties at the hotel.

SEATTLE FAIR OPENS ON TIME

President Taft Presses Button That Starts Wheels in Motion.

KEY IS OF GOLD NUGGETS

Alaska-Yukon-Pacific Exposition Is Under Way, With Buildings and Grounds Completed and Exhibits In Place, Bearing Out the Motto of "the Show That Will Be on Time." Scenic Beauty and Novel Features. "The Pay Streak."

Seattle, Wash., June 1.—The Alaska-Yukon-Pacific exposition is open. At 12 o'clock, Seattle time, President Taft pressed the button which set the machinery in motion, using for the purpose a key formed of Alaska nuggets. As the wheels in the various buildings began whirring and the latest of the world's fairs was declared officially opened one feature that excited the enthusiastic comment of the great crowds present was that the management had lived up to its motto of "the show that will be on time." Not only were the buildings completed and the grounds covered with grass and flowers, as though they had been planted for years, but every exhibit was in place. It is the first time any exposition has actually opened on the opening day, and the departure has proved most welcome to the visiting thousands.

The ceremonies on the grounds began two hours before President Taft, on the other side of the continent, pressed the button that made the great fair a living thing. The scene presented carried out Charles Dana Gibson's verdict after visiting the grounds that the A.-Y.-P. is "the most beautiful exposition ever planned." Situated between two fresh water lakes in a forest of great trees, the natural setting to the picture is ideal. There are the usual buildings seen at expositions, with the advantage that many of these are to be permanent and after the fair is closed on Oct. 15 will be turned over to the University of Washington, on whose campus the fair is held. The fact that the exposition grounds belong to a college is the cause of a third novelty, which is that this is a "dry" show, no intoxicating liquors being sold in the vicinity. Still a fourth unique feature is that this exposition did not ask Uncle Sam for a cent. The $600,000 which was spent on the government buildings was given voluntarily. To most these are welcome departures and have created favorable comment.

Commemorates No Past Event.

The A.-Y.-P. is commemorative of no past event. It is hung upon tomorrow rather than yesterday, a prophecy rather than a memorial. It exhibits what are unknown and undeveloped, the potentialities of the Pacific northwest, Alaska and countries bordering on the Pacific. Otherwise stated, it is an exposition of what is very largely unknown rather than of the highest development. Alaska has remained first in the title and inspiration of the exposition. This territory, for which we paid $7,200,000, produces three times that amount every year in gold alone. In the last forty years it has produced, besides its gold, $80,000,000 worth of furs, and its fisheries have handled a product valued at $96,000,000. The exposition serves to show Americans that Alaska is an empire of agricultural and forest wealth as well as a treasure box of minerals.

The far eastern countries bordering on the Pacific, including the Philippines and Hawaii, have the most elaborate exhibits at Seattle that they have ever attempted anywhere. Here it is possible to find out what these countries need as well as what they produce. Japan perhaps more than any other eastern nation has grasped the commercial importance of the exposition, and its official representation has been carried out on a comprehensive scale.

For the amusement street of the exposition a novel name and many novel features have been found. What was the Midway at Chicago, the Pike at St. Louis, the Trail at the Portland exposition and the Warpath at Jamestown is called the Pay Streak at Seattle.

SAMUEL M. VONADA.

Dies Suddenly After a Short Illness.

This community was greatly shocked Saturday morning to learn of the sudden death of one of its citizens, Samuel M. Vonada, who passed away Friday evening at 11:30 o'clock after an illness of only an hour and a half of neuralgia of the heart.

Mr. Vonada who drives the wagon for the Bellefonte Lumber Company, worked all day Friday and was apparently in the best of health. After supper he went down and fed his horses and returning home spent the evening with his family. Immediately after retiring he was seized with a severe pain about the heart and soon become unconscious passing away as above stated.

The deceased was born at Jacksonville Centre County, and was aged 46 years on the 2nd. of April. He was son of Samuel and Mary E Vonada, both deceased. For the past fourteen years he has been a resident of Bellefonte and all that time was employed first by the Ardell Lumber Company and later by their successors the Bellefonte Lumber Company. He was a member of the Reformed church and a good industrious citizen.

Sixteen years ago he was united in marriage to Miss Minnie Yearick, of Jacksonville, who survives him with the following children, Anne E., and Samuel.

He also leaves two brothers and two sisters, namely James, Frank and Mrs. John Schaffer of Jacksonville, and Mrs. Henry Tibbens of Bellefonte. The funeral took place Tuesday afternoon at 2 o'clock. Rev. Schmidt officiated. Interment at Bellefonte.

Placates Bear by Feeding him Trout.

While George English, of English Centre, was fishing along Black creek he was suddenly confronted by a bear engaged in the same occupation. Judging by its humor, bruin's angling had been unavailing, for he made a rush at the man whom he evidently regarded as a rival.

English found that his only line of retreat lay up a tree that grew close to the side of the stream. He made a record climb, and when temporarily safe in a fork, found that he was still attached to his fishing tackle by means of the hook, that had caught in his coat.

The bear followed English to the foot of the tree, and the latter hauled up his rod, as it was his only available weapon of defense. While the man, being a good angler, was a good waiter, the animal proved itself to be quite a lingerer also, and stood resolutely on guard. English began to feel very uneasy when it suddenly occurred to him that his captor might be inclined to be lenient if he were less hungry. The angler was within casting distance of the creek, and he brought all of his skill to bear. Luck was with him, and within ten minutes he had landed four trout.

The animal caught on to the arrangement at once ate the catch, circled the tree in a friendly way, then took to the woods.

English asserts that while he has caught some large fish in his time, the ones he fed to that bear beat everything he ever landed in size.

The Boxing Tournament.

There was a large crowd present in the Armory Monday evening to witness the boxing bouts before the Bellefonte Athletic Club. Every thing passed off nicely and the best of order was maintained. There were several preliminary bouts between locals which led up to the main event, which was between Kid Pilkington of Bellefonte, manager Blackford's crack featherweight, and Joe Berstein of Philadelphia. This bout went six rounds and was a good one, with the exception that the boys did to much sparring and clinching to suit the spectators. Of course there was no decision but it looked to the majority of those present as if Bernstein had slightly the best of the match. Although both were in good shape at the finish.

The Coleville band furnished the music for the occasion and the bouts were refereed by Jack Cardiff, a Philadelphia boxer, of considerable reputation.

MEMORIAL DAY SERVICES.

Weather Was All That Could be Desired and Ceremonies Were Impressive.

Again has the observance of Memorial Day passed into history. So far as the observance in this town was concerned it was in the hands of Gregg Post No 95 G. A. R., and the parade was the largest for several years and the ceremonies in the cemetery were very impressive. The weather was all that could be desired.

The parade formed in the Diamond with Capt. S. H. Williams as chief marshall, and marched out Allegheny street to Howard street and thence to the cemetery. The parade was headed by the 5th Regiment Bugle corp. Following were Co B, 5th Regiment N. G. P., Gregg Post No 95 G. A. R., Logan Fire Company, Undine Fire Company, Patriotic Order Sons of America and the School children. The latter were an especially pretty and attractive feature of the parade.

The usual services of decorating the graves of departed soldiers and sailors was held and proved very impressive. At the grave of Gov. Curtin an eloquent address was delivered by Col. J. L. Spangler who paid a great tribute to the departed War Governor. The parade then returned to the Diamond where they adjourned to the Court House to listen to the Memorial Address. The meeting in the Court House was presided over by Commander Thomas Donachy. A quartette composed of C. C Shuey, J. P. Smith, A. V. Lukenbach and L. A. Schaeffer sang a very beautiful selection after which Miss Sarah Shuey, daughter of C. C. Shuey delivered Lincoln's address at Gettysburg. The young lady delivered this address in an excellent manner. She spoke distinctly and emphasized the words where necessary. She was heartily applauded for her effort.

The speaker of the afternoon was then introduced in the person of Rev. John Hewitt, rector of St. John's Episcopal church, of Bellefonte. Rev. Hewitt was born in the southland and served in the Confederate army which made his remarks especially interesting. He spoke of the great industrial progress the country has made since the civil war; of the wiping out of the Sectional feeling; of the Spanish-American Veteran, and finally paid a tribute to the memory of Curtin, the friend of every soldier. It was an eloquent address and was listened to closely by the large audience present. This ended the services of the day.

ROGERS LEFT ALL TO FAMILY

Widow and Children Given Most of His Millions.

PROVIDES FOR TRUST FUNDS

Will of Standard Oil Official, Disposing of Fortune Close to $100,000,000, Filed For Probate In New York. $100,000 to Native Town of Fairhaven.

New York, May 29.—With the exception of $100,000 bequeathed to the town of Fairhaven, Mass., his birthplace, the entire fortune of the late Henry H. Rogers, vice president of the Standard Oil company, which is estimated at close to $100,000,000, is left to relatives. The will was filed by James M. Beck, the attorney who drafted it, for probate. The bequest of $100,000 to Fairhaven is, under the terms of the will, to be used for the primary and grammar schools of that town.

The will gives to the widow the use of the New York city residence and sets aside a trust fund of from $2,500,000 to $3,000,000 to provide an annuity for her of $100,000. At her death this trust fund is to be returned to the residuary estate. Mr. Rogers leaves his residence at Fairhaven, Mass., and his real estate there to his son, Henry H. Rogers, Jr.

Various trusts, ranging in amounts from $10,000 to $20,000 each and altogether aggregating $500,000 are created for the benefit of Mr. Rogers' collateral relatives. The income from these trusts is to be paid to the various beneficiaries during their lives and upon their deaths the principal of the trust funds will revert to the residuary estate of the testator.

The following beneficiaries receive the income from the sums named:

Rufus A. Rogers, the testator's brother, $200,000; Maud Rogers, wife of Rufus A. Rogers, $100,000; Marion Rogers, daughter of Rufus A. Rogers, $50,000; Rowland Rogers, son of Rufus A. Rogers, $50,000; Sarah T. Huttleson, cousin of testator, $20,000; Julia Tuck, cousin of testator, $20,000; Agnes I. Gardner, cousin, $20,000; Jane W. Nye, New Bedford, cousin, $20,000; Jennie Nye, daughter of Jane W. Nye, $10,000; Mary Nye, daughter of Jane W. Nye, $10,000.

Creates Four Trust Funds.

Mr Rogers, after making the bequests, divided his residuary estate into four trust funds, one for the benefit of each of his children. When the children attain the age of forty years they are each to receive one-half of the principal of the trust created for their benefit; the other half is to be held in trust during the life of each child, but the children are each given the power to dispose of the principal of the trust by will.

The four children of Mr. Rogers who share equally in his residuary estate are named in the will as follows: Anne Engle Benjamin, Clara Leland Broughton, Maie Rogers Coe and Henry Huttleston Rogers.

An odd provision is the request that the testator's son, Henry H. Rogers, Jr., be made president of the Virginian railway, built by the dead man, and that his son-in-law, Urban H. Broughton, be made chairman of the board of directors of that company.

QUAKE ROCKS THE NORTHWEST

A Strong Shock Was Felt In Many Places.

DID NO SERIOUS DAMAGE

Causes a Scare In Four States, Shaking Buildings and Sending Frightened People Scurrying to Streets. No One Was Killed or Injured.

Chicago, May 27.—A distinct earthquake shock was felt throughout the northern part of Illinois. The motion was from north to south, and lasted one-half minute. The quake was reported especially noticeable in and about Elgin and as far west as Davenport, Ia. It was sufficient to set chairs rocking, make dishes rattle in homes and nearly overthrew people walking in the streets.

The shock was distinctly felt in the office of the local weather bureau in the dome of the federal building, and in the following cities: Aurora, Bloomington, Dixon, Elgin, Freeport, Galena, Joliet, Kawanee, Moline, Peoria, Rockford, Springfield, Stirling and Streator, Ill.; Beloit, Janesville and Milwaukee, Wis.; Davenport, Dubuque and Cedar Rapids, Ia.; Benton Harbor, Kalamazoo, Muskegon and South Haven, Mich.

No one was killed or injured, nor do reports show any save minor damage, such as breaking of dishes and china or ornaments thrown from mantlepieces.

The delicate instruments of the weather bureau here were not disarranged. It is said the shock was not felt at the street level, but was noted at the second and higher floors of buildings.

At Peoria many of the larger buildings were shaken and on the bluffs in the residence section the shock was more perceptible than down town.

Didn't Know It Was a Quake.

Although the disturbance was felt everywhere in Chicago, it was not until the newspapers were on the streets that citizens were correctly informed of what had happened. A young woman stenographer in the federal building thought somebody had come up behind her and given her chair a shake. "You stop that," she said angrily, turning around, only to discover there was nobody behind her and that the rest of the office force was watching the shaking of a chandelier.

Beloit College Buildings Rock.

Beloit, Wis., May 27.—The entire Rock River valley felt an earthquake shock. All the college buildings rocked violently, and houses throughout the city were shaken. Dishes rattled and people on the street had difficulty in remaining on their feet.

Scare In Dubuque Offices.

Dubuque, Ia., May 27.—Two earthquake shocks were felt here. The bank and insurance office building, a substantial seven-story structure, was shaken violently, and its hundreds of occupants hurried out, choking stairways in their haste. Reports from the residence districts emphasize the severity of the shocks.

Farmer's Special Train from Lemont to Lewisburg

In furtherance of the educational campaign which it is conducting among the farmers along its Lewisburg and Tyrone Branch, the Pennsylvania, co-operating with the Pennsylvania State College of Agriculture, will on June 1st. run a Farmer's Special train from Lemont to Lewisburg, Pa.

This movement differs from other similar ones in that the Railroad is using a "follow-up" system to create added interest in scientific farming. On March 10th, a special train running from Lewisburg to Lemont, Collected the station agents between those points, and took them to State College, Pa., that they might see the work which is being done there, and return to their homes as missionaries in the cause of better farming.

The next step is the operation Tuesday June 1st, or the Farmers' Special. This will give the professors from State College a chance to instruct the farmers in fundamental principles, which, if applied, will increase the crops of the farms. Following the Farmers' Special the railroad will on June 10th run an excursion from points between Montandon and Lemont to State College. This will afford the farmers an opportunity to visit the experiment station, and to witness the results that have been accomplished by the practices which they have been urged to adopt.

The State College is to be represented on the June 1st. special by Dr. Thomas F. Hunt, Dean of the State College of Agriculture, and Professors Alva Agee, C. F. Shaw, H. E. Van Norman, and M. S. McDowell. They will talk on alfalfa, soil fertility, dairy products, and corn. Division Freight Agent W. G. Spangle and Superintendent H. P. Lincoln will represent the Railroad Company.

The schedule of the Special will be as follows: Leave Lemont 7:30 A. M., arrive Centre Hall 7;50, Rising Springs 9:15 Coburn 10:30, Glen Iron 12:45 P. M. Millmont 1:55, Mifflinburg 3:15, Vicksburg 4:30, and Lewisburg 5:45.

UNITED HATTERS SCORE VICTORY

Suit For an Injunction Thrown Out of Court.

CAN'T JEOPARDIZE INDUSTRY

Judge In His Opinion Said Workingmen Were Powerless to Accomplish the Acts Complained of by the Manufacturers.

Trenton, N. J., May 28. — Judge Cross, in the United States district court, sustained the demurrer in the case of the Samuel Mundheim company, of New York, against four of the officers of the United Hatters of America. The Mundheim company alleged that the United Hatters were holding up the workmen to such an extent that the hat manufacturing industry throughout the country was in jeopardy. The defendants in the suit were John A. Moffit, president of the United Hatters of America; Richard Lowe, president of local union No. 14; James Byrne, secretary, and Charles Cullen, president of local union No. 13.

The allegations of the Mundheim company were that these officers controlled the action of the workmen of the several local unions of New Jersey, New York, Connecticut and Pennsylvania and that this power was exercised against the Mundheim company and fifty-eight other manufacturers of the Hatters' association by compelling men to strike in factories where non-union men were employed and that union cards were taken from those men who remained.

By this opinion the suit for an injunction to restrain the officers of the United Hatters of America from taking cards away from workmen who enter the employ of the Mundheim company is thrown out of the United States court.

Judge Cross in his opinion said that the court found that the defendants were powerless to do or accomplish the acts complained of by the Mundheim company. It is probable that the Mundheim company will begin proceedings for a new trial.

COUNT BONI WINS A POINT

Will Control Education of His Children and De Sagan Can't Visit Them.

Paris, May 28.—The decision of the superior court of Count Boni de Castellane's appeal of the suit brought by him for the custody of his children was handed down and is a partial victory for the count.

It confirmed the decision of the lower court giving the mother the custody of the children, but it set forth that the father alone had the right to designate where they are to be educated. Prince Helie de Sagan is specifically excluded from the list of persons authorized to visit the children, and the count's contention that the influence of the prince is pernicious is thus in effect sustained.

PARIS GREEN PAINT KILLS

Cattle Die of Poison Washed Off "Mountain" by Rains.

Red Hill, Pa., May 28.—Henry B. Auchy, proprietor of White City, at Chestnut Hill, lost some valuable cattle by death in a peculiar manner.

Wednesday four of the six fat steers died suddenly, and upon investigation it was found that the recent rains had washed the paris-green paint, that had been sprayed on the "mountain" through which the scenic railway passes, on the grass, and the animals were poisoned.

The two remaining steers are also likely to die.

Displeased at Racy Character of Performance He Attended.

Washington, May 28. — President Taft manifested his disapproval of a play by leaving the theater. He was attending the performance at a local playhouse, and the show had not progressed far before a doubtful look came over his face, and it was evident that he did not approve of the racy character of the lines and action. At the close of the first act the president left the theater.

Will Cost one Dollar To Spit on Pavement.

A new law which will be widely felt in Bellefonte and other places in Pennsylvania was approved by Governor Stuart, when he signed the anti-spitting bill. It prohibits expectoration in practically all public places (except driveways—the places are listed in the bill—and provides that prominent signs shall be kept posted in such places, calling attention to the law. Where spitting receptacles are provided for the public they must be cleaned after each day's use. Persons violating the act can be convicted in summary proceedings before any magistrate and fined $1 and costs to be paid into the municipal treasury; in default of payment the jail sentence is not to exceed five days. Persons firms or corporations not keeping the warning signs posted and not having cuspidors cleaned according to the law are to be fined from $5 to $50.

If this bill will be enforced in Bellefonte, it will keep both the local police force and the justices busy. There will probably be a marked decrease in the consumption of plug tobacco.

The majority of local citizens will approve of this law, however, for it will tend to keep the pavements in town in much better condition than before, and will also aid in the preservation of the public health. Its importance to the welfare of the town may be estimated from the fact that the general neatness of Bellefonte and the beauty of its streets are among its principal assets as a town worth living in.

Flag Day June 14th.

The American Flag Association has issued a circular calling attention to the fact that Monday, June 14th, 1909, will be the 132nd anniversary of the adoption of the stars and stripes as the of the United States. It concludes by saying: "We earnestly exhort our citizens in join in making Flag day an event, and its celebration in 1909, a great event. Let us from one end of our land to the other, fling the stars and stripes to the breeze on June 14th, 1909. May it greet the rising and salute the setting sun and float all day long from every church edifice, school and building, public and private, and however humble, throughout the entire land."

FISTICUFFS IN THE SENATE

Mr. Bailey and Newspaperman Exchange Blows.

NEITHER WAS INJURED

The Fight Was the Result of an Article Printed In a New York Paper Questioning the Sincerity of Senator Bailey on the Income Tax.

Washington, May 28. — Senator Bailey, of Texas, and W. S. Manning, representative of the New York Times at the senate press gallery, exchanged blows in the senate as a result of a conversation they had in reference to an article printed by the New York newspaper questioning the sincerity of the senator in his course on the income tax. Neither of the participants was injured, as they were separated by Senator Clapp, Porto Rican Commissioner Larrinaga, a number of senate employes and several newspaper corerspondents.

A bitter attack upon the author of an article in the New York Times, charging that Senator Bailey had played into the hands of Senator Aldrich by his course in demanding an

immediate vote on the income tax amendment, and had thus caused a split of the forces supporting such an amendment, was made by Mr. Bailey on the floor of the senate. Mr. Manning accosted Mr. Bailey after the adjournment of the session to inform him that he was inaccurate in suggesting Republican senators as a possible source of inspiration for the article. According to both Mr. Manning and Senator Bailey, the former disclaimed authorship of the story.

Mr. Bailey asked who did write the article, and at the same time declared, it is said, that the man who had written it was a "liar." According to both men, the senator's language was very emphatic, and Mr. Manning responded that he "had not had the honor to write the story."

Mr. Bailey says that the word "honor" was emphasized in a manner intended to be offensive. Several persons heard the word "liar" exclaimed in a loud voice and then saw Mr. Bailey and Mr. Manning clinch. The latter claims Mr. Bailey hit him first. In the mix-up Mr. Manning struck the senator with his umbrella, knocking off the senator's hat, and the senator grabbed Mr. Manning by the throat.

Just at that moment the elevator stopped at the senate floor, and Senator Clapp and Mr. Larrinaga stepped from the car. Without waiting to learn the cause of the disturbance, Mr. Clapp threw his arms around Senator Bailey, who at that time seemed to be in position to do serious injury to the newspaper correspondent, a young man of very slight build.

The speech by Mr. Bailey in regard to the newspaper article was one of the most scathing arraignments of a newspaper correspondent that has ever taken place in the senate. The senator not only asserted that the writer of the article was "an infamous liar," but that he was a "miserable creature unfit to associate with honest men."

BRANDS TEDDY GAME BUTCHER

Dr. Long Says Slaughter in Africa is Simply Atrocious.

INFLUENCE VICIOUS ON BOYS

Scientist Declares Mr. Roosevelt's Interest In Animals Lies Chiefly In the Direction of Blood, Butchery and Brutality.

Stamford, Conn., May 28.—Dr. William J. Long, the former minister and nature writer, some of whose writings were bitterly resented by Theodore Roosevelt when he was president, has delivered himself regarding Mr. Roosevelt's African hunting trip.

Dr. Long said he had intended to wait until Mr. Roosevelt's return, or until something from his pen actually appeared before saying a word in criticism, but he had decided that some of the things the former president is said to have done in Africa call for protest. Dr. Long declares that the worst feature of the "whole bloody business" is the brutalizing influence which the reports from Africa have upon thousands of American boys. He said:

"As there are no reporters with Mr. Roosevelt these reports of frequent killings must come chiefly from himself and are such as he himself chooses to send out. If they are true they are exactly in line with his previous records. They prove what I said two years ago, quoting from his own books, that he is a game butcher pure and simple, and that his interest in animals lies chiefly in the direction of blood, butchery and brutality.

"You remember that when he made terms with the Smithsonian institution his published letter said:

"'Of course I am not a game butcher,' and then he immediately reserved for himself the right to do all the killing on the expedition. This is characteristic of his alleged scientific attitude. Matthew Arnold declared that 'conduct is three-fourths of life,' and Mr. Roosevelt adds that butchery is three-fourths of science.

"In this dispatch I notice that when he could not find buffaloes he had to content himself by shooting wart hogs and other inoffensive creatures. As the buffaloes are fast disappearing from Africa and as Mr. Roosevelt had already killed several, why in the name of science should he go out to kill more? And why, failing to find buffaloes, should he content himself by slaughtering other creatures?

"The whole thing is atrocious. It is exactly like his own record of killing eleven bull elk on one trip and then on his way out killing two more that he found fighting. Their meat was unfit for use and was left to rot in the woods. Then he preached to us on the virtue of game protection, and when he comes back from this trip you will hear his righteous dissertation on the necessity for preserving game in Africa, of course, after he has killed everything he could find."

Big Saw Mill Burned.

CUPID BOWLED OVER BY PRESIDENT TAFT

Midshipmen Cannot Marry as Soon as They Graduate.

Washington, June 2. — President Taft approved a change in the naval regulations recommended by Secretary Meyer, by which midshipmen are prohibited from marrying until the completion of the prescribed six years' course of training.

Permission of the secretary of the navy has been sought by a number of midshipmen who desired to be allowed to marry after their graduation from the naval academy and by others while they are on their two years' tour of instruction at sea. The naval academy regulations forbid any midshipman from marrying while at the academy, but do not apply to midshipmen who have graduated and are serving at sea. No order existed in the United States naval regulations preventing the midshipmen from marrying and the change in these regulations provides an absolute prohibition.

WORRY CAUSED SUICIDE

Unable to Rent His Building, Henry Hengler Cut His Throat.

Scranton, Pa., June 2.—Henry Hengler, aged forty years, a baker, killed himself by cutting his throat at his home on Colfax avenue. He has been unable to get tenants for the stores and has worried about it incessantly for the last couple of months.

WOULD BRING PENN'S BODY HERE

Congressman Palmer Plans to Disinter Remains.

WILL ASK TAFT'S AID

The Remains of the Founder of Pennsylvania Repose In a Practically Abandoned Cemetery In England and Is Not Appropriately Marked.

Washington, June 2. — Representative A. Mitchell Palmer, of Pennsylvania, who is one of the six members of the house of representatives affiliated with the Friends, is planning a movement to have the United States bring the coffin containing all that is mortal of William Penn to this country and have it interred on the banks of the Delaware.

The suggestion was made to Mr. Palmer recently by a constituent, who is a Friend, and who believes that the time is now opportune for such action. The body of Penn now reposes in a practically abandoned cemetery in Buckinghamshire, England, and considering his distinguished career, is not appropriately marked.

Mr. Palmer contemplates going about the business in a practical way and intends to submit the proposition to the president and ascertain his views, and, if it is possible, get the support of Mr. Taft. It is also his purpose to enlist the aid of Secretary Knox in the movement. The removal of Penn's body will have as a precedent the action taken by this government in disinterring the body of John Paul Jones from a cemetery in Paris and its reburial at Annapolis.

The movement is regarded as opportune at this time in view of the fact that the Friends have a larger representation in congress at this session than they have had in half a century or more. Among those affiliated with them are A. Mitchell Palmer, William S. Greist and Thomas B. Butler, of Pennsylvania; William H. Heald, of Delaware; William O. Barnard, of Indiana, and William W. Cocks, of New York.

Woman Says Publicity Is Effective Safeguard.

New York, June 2.—That 3284 men, women and children have been lynched in this country in the last quarter of a century was the assertion of Mrs. Ida Wells-Barnett at the National Negro Conference in this city.

Mrs. Barnett, who has spent several years in the investigation of lynching in the south and west, proposed that the conference maintain a permanent bureau for investigation, with attendant publicity, of all lynchings. Publicity, she said, was an effective safeguard.

Washington, June 2.—In the case of former Sheriff Shipp and others of Chattanooga, charged with contempt of the supreme court of the United States in the Tennessee lynching case, the court postponed the passing of sentence to permit the prisoners to file petitions for a rehearing. The cases therefore go over until the next term, the prisoners remaining out on bond.

TWO HELD FOR MURDER

Wife of Victim and Former Boarder Under Arrest.

Wilkes-Barre, Pa., June 2.—At the conclusion of a coroner's inquest to investigate the death of Anthony Daniels, whose charred remains were found in the ruins of a fire which destroyed his home near here two weeks ago, the county detective had warrants issued for the arrest of the wife of the deceased and Andred Olshefski, who formerly boarded at the Daniels home, charging them with murder.

Testimony was to the effect that before his death Daniels had often quarreled with his wife, and it was also shown that Olshefski about one month ago gave him a severe beating. The allegation being made is that Olshefski and the woman murdered the latter's husband and then set fire to the house to cover up their crime.

THE PHILADELPHIA TROLLEY STRIKE

Situation is Unchanged and There is Little Disorder.

Philadelphia, June 2.—The first ordinary business day since the beginning of the street car men's strike here last Saturday morning closed with conditions practically unchanged. The Traction company notified its men that those who had been discharged for striking on Saturday would be taken back if they reported for work at once. Men who had been discharged for trifling offenses in the past were also welcomed back. By the aid of the recruits hired in this and other cities the company was enabled to run 700 of its 3300 cars.

The first disturbance in the central part of the city occurred when men employed in erecting a high building in Chestnut street and Thirteenth showered nails and other missiles on a passing car. No arrests were made, but the police notified the builders that a repetition of the occurrence would result in all work on the building being stopped until after the close of the strike. As on previous days, there was little disorder and those arrested were held upon very trivial charges.

The mayor extended the time which saloons are allowed to remain open from 6 a. m. until 8 p. m.

The Business Men's association presented to Mayor Reyburn an appeal for arbitration to settle the strike. The mayor declared he does not favor arbitration, and said: "If order is preserved and the cars are running that is all that is necessary."

Labor leaders are planning a monster demonstration for Thursday, when they contemplate a parade of the 86,000 members of the Building Trades Council of Philadelphia. The members of the textile trades, numbering 40,000 men more, are also expected to join in the demonstration.

Howard.

A dozen of the handsome young ladies of East Main street last week decided on a "hike" and Wednesday morning being bright and fair they started afoot for Beech Creek. They left Howard about seven o'clock in the morning and walked leisurely to the neighboring town where they were entertained and refreshed at the home of Mrs. Lydia Jones by Mrs. G. Harvey Mann. They then continued their journey to the Beech Creek station on the Pennsylvania railroad and returned home on the noon train. The hike was enjoyed by all and more are being planned for the future. The jolly company was composed of the Misses Anna and Josephine Muffly, Emma, Edith, Nellie and Lauretta Weber, Sallie Wistar, Flora Pletcher, Jennie Kane, Susie Confer and Minnie Robb.

The first hail storm of the season visited this section last Thursday afternoon when hail as large as hickory nuts fell but little damage was done. When the storm was about past lightning, which had struck near Beech Creek, entered the exchange here and injured the operator Miss Carrie Butler. It is not known how long she had lain in an unconscious condition, but upon recovering she managed to raise herself to her chair and received a call from Beech Creek but was unable to speak to the person who called. Thinking that something was wrong the man at Beech Creek told her to call Dan Holter at the station. She made the connection and gave the ring and the man at Beech Creek told Mr. Holter that something was wrong with the exchange girl. The latter hurried to the exchange and found Miss Butler in an almost helpless condition from the effects of the shock, from which she did not recover for several days.

James Leathers, who was seriously injured at the Bowers and Leathers mill several weeks ago, is again able to be about.

The Home Missionary society of the Methodist church will hold a pie and cake social at the home of Mrs. John Schenck on Saturday evening June 5.

The annual memorial sermon to the G. A. R. was preached in the Reformed church Sunday forenoon by the pastor Rev. H. I. Crow. From an appropriate text the reverend delivered a powerful sermon which was very fitting to both the military and spiritual life of the soldiers. The collection taken for the benefit of the Post amounted to $7 28. Only eleven members of the Grand Army were in line, six of them being members of Grove Brothers Post, as follows: J. R. Pheasant, James Wyble, H. J. Pletcher, M. P., J. B., and H. C. Holter W. J, Wilson, W. H. Neff, Charles Rush, James Tyson, William Rimert and John Knarr. The veterans were accompanied by large representations from the P. O. S. of A. and I. O. O. F.

Monday afternoon the annual decoration services took place. The parade formed on Walnut street at 1.30, at the P. O. S. of A. hall. The Howard Cornet band was in the lead, followed by the P. O. S. of A., I. O. O. F. and Grove Brothers Post. The line of march was up Walnut street, countermarched to Main, down East Main and back to the cemetery where the customary decoration services took place. The Post, orders and many citizens then retired to the Methodist church where they listened to the oration of the day by J. Kennedy Johnson, of Bellefonte. With the exception of the veterans there were more men in line on Monday than for many years. Flags were placed on the graves of 115 soldiers of the various wars.

The Howard base ball team lost to Beech Creek Saturday afternoon on errors by the score of 9-4. One of the features of the game was Philip Holter's four hits and a walk out of five times up. Monday afternoon Howard won in a smoothly and well played game by the score of 3-1

A kick by a horse resulted in a serious accident to Alfred Lucas at his home on Marsh Creek Monday afternoon. The horse's foot struck Mr. Lucas in the face cutting a long gash in his chin and another over his eye. The wounds were dressed by Dr. O. W. McEntire.

John Barber Hutchinson, a native of Centre county, died at his home in McPherson, Kansas, on the 18th. of May 1909 aged 76 years 5 months and 18 days, He was the son of Thomas Hutchinson at one time a prominent man of Gregg township. Capt, A. Boyd Hutchinson and Maj. James F. Hutchinson were brothers of the deceased.

The McPherson Freeman gives the following sketch of his life: John Barber Hutchinson was born in Centre Co. Pa. on the first day of January 1833. He had a continued residence with his father until the year 1861. At the first call for troops in the beginning of the Civil War, he enlisted as a private, but at Harrisburg Pa. was elected 2nd Lieutenant of Co. 1, 15th. Regiment Pennsylvania Volunteer Infantry.

Near Harper's Ferry, Va. his company while acting as advance guard were surprised and captured by the enemy on the 2nd, day of July 1861. He was confined in the old tobacco factory prison in Richmand, Virginia for several months, for trying to escape, he was removed to New Orleans and for three months kept in close confinement in the old Parish Prison. He was then removed to Salisburg N. C, and exchanged from there after being in prison almost thirteen months.

He after wards served as First Lieutenant of a Company of State troops for one hundred days and again as Captain of Co. D. in a battalion of state troops at the time of the invasion of Pennsylvania in 1863.

In November 1864 he was married to Mary Ellen Carson of Centre Co. Pa. and the following spring removed to Carroll. Co., Ill. where he resided until 1869, when he came to Kansas settling at Black Jack, Douglas Co.

About five years later he moved to Johnson County. While living there he was elected a member of the Legislature.

In the fall of 1881 he removed to McPherson, Co. to a farm just west of McPherson, where he continued to reside until 1900, when he retired to McPherson which has since been his home until his death. His wife preceded him to the grave Sept. 3, 1886. He was a loving husband and father and as a citizen always stood for his convictions of right and justice and by his life more than by his words brought to bear his influence for right living.

Sleep

Sleep is nature's rebuilding period, when the energy used by the brain, muscles and organs is renewed. If you lose sleep, your system is robbed of the strength sleep should give. Continued loss of sleep multiplies this loss until you become a physical wreck. Dr. Miles' Nervine quiets the irritated nerves and brings refreshing, invigorating sleep. Nervine contains no opiates, and therefor leaves no bad after-effects.

"For over two years I suffered untold agonies; my friends thought I was going crazy. I could not sleep nor rest at all. I tried different doctors, but failed to find relief. My head would ache all the time; I was like one drunk; could not concentrate my mind, and was so restless and worried that sleep was out of the question. After taking one bottle of Dr. Miles' Nervine I felt wonderfully changed. I am now on my third bottle and am gaining all the time. I can lie down and sleep like a child, and am able to do my work."

MAKES LONGEST AIRSHIP FLIGHT

Count Zeppelin Breaks All Previous Records.

TRAVELS OVER 456 MILES

The Journey Lasted Nearly Twenty-two Hours—Starts on Return Trip Without Landing—Thousands, Including the Emperor and Empress, Gathered in Berlin, Expecting Airship to Land There.

Berlin, May 31. — Count Zeppelin, whose remarkable performances in his first airship brought unbounded honors to the inventor, accomplished the most striking feat in his career. He guided his Zeppelin II. from Friedrichshafen to Bitterfeld, a distance of more than 456 miles, without landing. The journey lasted nearly twenty-two hours, and so far as known Count Zeppelin is still in the air, on the return journey to Friedrichshafen. He has already beaten all records for dirigible balloons, with the opportunity of greatly improving the performance.

It was announced and widely distributed in special editions of the newspapers that the count would come to Berlin and land at the Tempelhof parade grounds. Hundreds of thousands gathered there. The emperor and empress, several of the princes and the leading military officials and officers were present, and towards evening searchlights were set to work in anticipation of the approach of the airship. Soldiers kept an enormous space clear for several hours, when a dispatch from Bitterfeld announced that the airship was returning to the starting point at Friedrichshafen, which caused the most intense disappointment.

Count Zeppelin In Charge.

Count Zeppelin, who personally was in charge of the airship, and whose hand was on the tiller during the greater part of the journey, had not allowed a word to be made public relative to his intention to undertake an endurance trip. It was, however, common knowledge that he purposed to seize the first favorable opportunity to proceed to Berlin in his newest craft, Zeppelin II., which was built to replace the one destroyed near Echterdingen last year.

The voyage began under rather unfavorable conditions. There was a lowering sky, rain clouds and a strong side wind when the airship left the floating hall shortly after 9 o'clock on Saturday night. The residents did not pay much attention to this, as they were accustomed to night flights, and when the great ship took the air at 9.42 there was not a cheer to speed her on her way. The ship ascended directly for a few hundred feet and, passing over the town of Friedrichshafen, proceeded northward.

Hyland was knocked out by a left hook to the stomach, after he had been floored several times in the two preceding rounds.

Fright Cures Him of Paralysis.

Washington, May 31.—Virgil Poling, who for nine years was unable to walk by reason of partial paralysis, following a fall, and who required constant attention, has been cured by a fright. A few weeks ago Poling could feel no pain when a lighted candle was held against his flesh. Last Monday his wife was awakened by the sound of a section of plaster, which fell from the ceiling. So was Poling, and involuntarily he sprang from the bed and walked across the room. He regards it as a remarkable instance of auto-suggestion.

Suggestive Questions on the Sunday School Lesson by Rev. Dr. Linscott for the International Newspaper Bible Study Club.

June 6th, 1909.

The Power of the Tongue. James 3: 1-12.

Golden Text—Whoso keepeth his mouth and his tongue keepeth his soul from troubles. Prov. 21:23.

This chapter continues the thought of last week's lesson, based on the previous chapter.

Verse 1—What class of persons are most likely to want to rule, or be "masters," those engaged in good works or those who neglect them.

Will one who is in rapt love with his fellows want to rule them, or will he judge them harshly?

Unfaithful Christians always put up a high standard for others; what effect will that have upon the standard with which God will measure them? (See Mat. 7: 1-5)

Verse 2—How much of our trouble we make for others is caused by our tongues?

If a man does not do any harm by his words, is he very apt to do any otherwise?

If a man says hard and unkind things about his neighbors, and intentionally wounds the feelings of others by his words, is he necessarily a bad man?

Is the control of the tongue the key to the control of the entire man?

Verse 3—It takes an iron bit to control a horse, what is the "bit" which will effectually control the tongue?

In what respect is an ungoverned tongue like a runaway horse with a broken bit, and what are generally the results in each case? (This question must be answered in writing by members of the club.)

Verses 4 5—It is actually so, that the tongue is to the man what the rudder is to the ship, that is, does the tongue govern the influence of the man?

Is it necessary at all times to watch our tongues, compelling them to refrain from wrong words, and to use right words: just as the man at the wheel of a ship controls the rudder with vigilant watchfulness?

Is the tongue capable of setting a church or a neighborhood all ablaze with scandal, just as a match may set fire to a city?

Verse 6—What are some of the many "iniquities" which the tongue can cause?

Can you recall and mention some of the moral poison emitted by an evil tongue?

Do persons with an evil tongue always draw their inspiration from "hell?

Verses 7 8—Man can do very wonderful things in training animals and controlling the forces of nature, but cannot "tame" the human tongue nor destroy its poison; to whom may we apply to have this effectually done.

Verses 9-12—If a man uses his tongue both for bad and for good, for "blessing and cursing," does this not stamp him as a rank hypocrite?

Is it possible for a person with an evil tongue, to be at the same time well pleased to God?

IN CONTEMPT IN ODD CASE

Supreme Court Holds Officials Who Permitted Lynching.

FIRST TIME ON RECORD

Sheriff and Five Others Guilty of Conspiring to Lynch Negro Who Had Been Sentenced to Death, and In Whose Case the United States Supreme Court Had Granted an Appeal.

Washington, May 25.—For the first time in so serious a case the supreme court of the United States will, on next Tuesday, undertake to mete out punishment for the crime of contempt of the court itself, and the importance of the occasion will be enhanced by the number of the defendants.

The proceedings will take place in connection with the cases of Sheriff Shipp and Deputy Sheriff Gibson, of Hamilton county, Tenn., and four other residents of that county, named respectively Williams, Nolan, Padgett and May. These men were declared by the court to be guilty of an act of contempt in combining in 1905 in a conspiracy to lynch a negro named Johnson, who had been sentenced to death by the local courts upon the charge of rape, and in whose case the supreme court had interfered to the extent of granting an appeal, which had the effect of a supersedeas. On the night following the announcement of the court's action Johnson was taken out of the jail in Chattanooga by a mob and lynched. There was no resistance on the part of the jail authorities, and Shipp and a number of his deputies, as well as about twenty citizens, were proceeded against on the charge of contempt of the federal court.

The case has been pending ever since, and the number of defendants was from time to time reduced to nine. Of these nine three were found guiltless, while the other six were ordered to be brought into court next Tuesday for sentence. They will be taken into custody immediately and will appear in court in charge of Marshal Wright. The sentence may be either fine or imprisonment, or both.

The case is regarded as of exceptional interest, because it is practically the first time that the highest court in the United States has ever undertaken to assert its dignity or to resent acts or words reflecting upon it.

GOOD, HONEST, SQUARE-DEAL

Medicines like those of Dr. R. V. Pierce of Buffalo, warrant their makers in printing their every ingredient, which they do, upon their outside wrappers, verifying the correctness of the same under oath. This open publicity places these medicines *in a class all by themselves.* Furthermore, it warrants physicians in prescribing them largely as they do in their worst cases.

Dr. Pierce's Golden Medical Discovery

Is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach and bowels, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), liver, bowels (as mucous diarrhea), or other organs.

Dr. Pierce's Favorite Prescription

Is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities peculiar to women. It is a powerful yet gently acting invigorating tonic and nervine.

For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American, medicinal, forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines *of known composition*, any *secret nostrum*. Don't do it,

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

STEEL TRADE IS BOOMING

More Orders in Last Three Months Than All Last Year.

IDLE MILLS TO RESUME

The Carnegie Company Report 100 Per Cent Greater Bookings For Three Months Than During 1908—Homestead Workers Get First Full Pay In Eighteen Months.

Pittsburg, Pa., May 29.—The Carnegie Steel company, according to the sales department, has booked more orders within the last three months by 100 per cent than the company booked during 1908, with the exception of orders for steel rails.

Specifications for deliveries are coming in so rapidly that no holiday can be given the workmen Monday to celebrate Memorial day. The mills will close tomorrow, but every man has been ordered to report Monday morning for duty.

Friday was payday at the steel mills, and it was the first full two weeks' pay roll handed out to the workmen in eighteen months. Fully $200,000 was paid the men at the Homestead Steel works alone, which, with the other mills, made a total payroll of $500,000 in this district by the Carnegie Steel company. Pittsburg is gradually getting back to its million-dollar-a-day pay roll, and it is expected by fall this amount will be earned daily in this district, as it was in the palmy days of 1906-7.

Every mill at Homestead will be in operation June 1, working double turn, and all the other plants but the rail mills will be working full time. In addition to this, the steel plant at Bellaire, O., which has been idle, will be operating in full, as will the Riverside plant of the National Tube company, at Benwood, W. Va.

Will Build Ten New Mills.

Pittsburg, May 29.—Announcement was made that the McKeesport Tin Plate company, of McKeesport, Pa., near here, will erect ten new mills in Portcue borough, a short distance from here, the estimated cost of the improvements being $500,000. Six hundred additional men will receive employment.

NEW STEEL CONCERN

$3,000,000 Company Is Incorporated In Delaware.

Dover, Del., May 29.—The state department of Delaware issued certificates of incorporation that started in business the Imperial Steel corporation, which has for its object "to mine, prepare for market, mill, refine and transport all mineral substances." The incorporators are Joseph B. Turner, of New York, and F. M. Shibe and Harry W. Davis, of Wilmington. The capital stock is $3,000,000.

Under the laws of Delaware the corporation may increase its capital stock at any time to $75,000,000 by simply filing a charter amendment. Some are inclined to look upon the concern as the coming rival of the United States Steel corporation.

MINORU WON DERBY

King Edward First Reigning Monarch to Capture Blue Ribbon Event.

Epsom Downs, Eng., May 27.—For the first time the great English turf classic, the Derby, was won by a reigning English monarch, when King Edward's horse, Minoru, came home in front of a field of fifteen, winning the $32,250 prize. W. Raphael's Louviers was second, only a head away, and there was but three-quarters of a length between Louviers and Lord Michaelham's William IV., which finished third. The time was 2.42 2-5.

The American horse Sir Martin fell at Tattenham Corners.

King Edward and Queen Alexandra were present to see Minoru win what was one of the most sensational Derbies ever run.

The victory of Minoru was received with the wildest cheering. The king evidently was highly pleased, and raised his hat in acknowledgment of the ovation.

Taft Orders Inscription on Lincoln Head Pennies.

New York, May 27.—Not only will the new pennies about to be coined at the Philadelphia mint bear the head of Abraham Lincoln, but the inscription "In God We Trust" will appear upon the coin. The penny marks a radical departure in American coinage. Heretofore United States coins have borne only the heads of Liberty and the eagle.

Proofs of the new penny had been struck and submitted to President Taft by Victor D. Brenner, the New York sculptor and medalist, and he was advised from Washington that the inscriptiin "In God We Trust" must appear. This change will necessitate a delay in the coinage, and new pennies will not be in circulation until late in August.

PHILADELPHIA CARMEN STRIKE

They Ran the Cars Into the Barns and Quit.

STRIKE-BREAKERS WERE READY

The Company Manned Cars With Non-Union Men and Are Operating Most of the Lines—Police Guard Barns and Power Houses, and Reserves Are Held at Station Houses Ready For an Emergency.

Philadelphia, May 29. — The 6600 motormen and conductors of the Rapid Transit company were called out today by the executive committee of the Street Car Men's Union. The majority of the men obeyed the strike order, and after running the cars to the barns left them and reported at strike headquarters. The company had been preparing for a strike for some time and had men ready to take out cars. Several of the lines are badly crippled, while on others cars are running at nearly regular intervals.

The car barns are usually the center of all disturbances which frequently result during strikes in an effort to operate their lines with non-union men. As a result a strong detail of uniformed policemen and plain clothes men are assigned to the respective car barns.

The entire police force of the city have received strike orders from Director of Public Safety Clay. The reserve squads of every district are on hand in their station houses for an emergency. Special details have been placed on guard at the power houses of the trolley company.

Today marks the opening of Willow Grove and is practically a legal holiday here, second only in traffic to July 4. Thousands visit the cemetaries and many amusement parks on the trolley lines.

Recently the motormen and conductors were voluntarily given a raise of one cent an hour to become effective on July 1. Labor leaders, however, have been endeavoring to perfect their organization, taking advantage of the popular feeling against the company caused by the abolition of strip tickets. The officials of the company have refused to treat with the union leaders and a recognition of the union is the end sought to be gained by the strike.

"ADAM GOD" AND WIFE MAKE SCENE IN COURT

Their Testimony a Mass of Tears and Wild Sayings.

Kansas City, Kan., May 28.—An unusual spectacle was presented in the criminal court here, when James Sharp, known as "Adam God," and his wife, Melissa, who was known as "Eve God" to their band of roving religionists went on the witness stand. Sharp is on trial, charged with the murder of a policeman in a religious riot here a few months ago. The woman is yet to be tried.

The testimony of the couple proved a weird exhibition of tears, lamentations and wild sayings. Mrs. Sharp reviewed the history of herself and her husband. When she told of their conversion she wept so loud she could be heard in the street.

"Adam God," who followed his wife on the stand, wept almost constantly for the half hour that he was testifying. He explained in detail the beliefs of himself and his followers and told of the doings of his band.

"Brother," said Sharp finally, addressing the judge, and with tears streaming down his face, "it all came to me in a revelation as I lay asleep in my cell last night. The Lord said to me, just like it was in the Bible, that my enemies are my friends. Now, the Lord means that I must turn that saying around. If I am to find my friends I must go among my enemies. That is just the reason God led me into this courtroom."

Sharp denied shooting Patrolman Mullane, with whose death he is charged.

BRIEF MENTION

Short Items of Local Interest Gathered By The Way Side

—Mrs. Isaac Wyland, of North Thomas street is seriously ill with erysipelas.

—Mrs. David Steele who was operated on Friday at the Bellefonte Hospital is reported as getting along nicely.

—The lad who adopts and follows a regular course of useful reading will acquire a large fund of useful information in the course of a year.

—Mr. Geo. Bush the stationery man is keeping store by himself now until he gets another clerk, Miss Eva Showers having resigned her position.

—On Sunday a pair of gold rimmed glasses was found at the pumping station at the big Spring. Owner can have same by calling on Joseph Pressler.

—Mr. and Mrs. Harry Johnson of Valentine street, welcomed the arrival of the seventh son in their family on Tuesday of last week. With their two daughters their family now numbers nine children.

—According to the announcement of superintendant of public instruction, Dr. Nathan Schaeffer, the next institute of the public school teachers will be held at Bellefonte or State College during the week beginning December 20th.

—One of the finest show windows in this section of the State is that found in the store of Sim the Clothier. Almost every time you look into it you are sure to see something neat and tidy, be it a suit, a straw hat or a white vest.

—Miss Ada Welshans of Lock Haven, who eighteen months ago was in charge of the Western Union office at this place has been appointed manager of the Tyrone office to succeed Mabel Guyer who has been transferred to Chambersburg.

—The engagement of Miss Elizabeth Stuart, daughter of Mr. and Mrs. John W. Stuart, of State College, and Herold B. Shuttack, assistant professor of engineering at the college, has been announced, the wedding to take place about mid-summer.

—The Clearfield Water company has planned to spend thousands of dollars in the construction of two reservoirs. The larger one will be built within 800 feet of the dam on Moore Creek and have a capacity of 16,000,000 gallons. The other reservoir will have a capacity of 2,000,000 gallons.

—Wm. R. Brachbill, the Bellefonte, furniture dealer, is about to make some radical changes to his place of business on Spring street. Among them will be the digging out of the cellar which will be concreted and used as a basement. The store room will also under go repairs. This is done to give him more room for his large and increasing stock.

—Over 100 requests have been received for details of State police this summer, most of them from district attorneys and burgesses. It is improbable that Superintendent John C. Groome will send out any details before June 15th. The number of requests is away ahead of last year's number. An examination for vacancies in the force will be held on May 27th.

—Al. Garman, of Tyrone, formerly "our Al," once popular proprietor of the Garman House, is a candidate for sheiff in Blair county. If it depended upon Centre county voters, he would get the nomination and the election, and if the people of Blair county desire to have a competent and man in the sheriff's office they will make Al. Garman their choice and the place would never have been better filled.

—Charles H. Hile, formerly of Bellefonte, and a graduate of the Pennsylvania State College, class '92 has just been elected Vice President for Massachusetts of the New England Street Railway club; a social organization including the leading spirits of all the traction lines in the New England States. Incidentally, Mr. and Mrs. Hile are to be here for commencement week, at State. He was better known as Harvey Hile.

—Bear in mind that on Friday evening of this week the annual reception at the Bellefonte Academy will be held beginning at 8 o'clock. This is a social event looked forward to with great interest by our people, as it means an evening of great enjoyment. The grounds will be brilliantly illuminated and the interior changed into a veritable dreamland. The music this year will be furnished by Christy Smith's orchestra and it is the closing function of the year for the Acrdemy students. No invitations are issued except the general invitations through the newspapers, but all past patrons and students, and all present patrons and students, and all friends of the Academy are among those specially urged to be present.

—The Auto line to the College seems to be doing quite a business having loads most of their trips that they make especially on Sundays.

—The many friends of Mr. and W. H. Hunsinger will be pleased to learn of the arrival of a fine big boy at their home on Tuesday morning. Mother and babe are getting along nicely.

—Henry Kline has put neat hard wood floors in his shoe windows and embelished the front of the bases with his name in bright gold glass letters. They make a very neat and attractive appearance.

—Rev. John Hewitt made a very beautiful memorial address at the Memorial services over the grave of the late Dr. Atherton at State College on last Saturday, one that held the rapt attention of his auditors, numbering nearly a thousand, for some time.

—How beautiful the island in the creek on the way to the spring looks with its pretty coat of verdure. If there could be some pretty vines planted with some flowers of bright colors it would indeed be a beauty spot. It is to hoped it will not be desecrated in any way.

—P. Gray Meek deserves great credit for the hard work he has put in and has succeeded in making such a beautiful lawn at his residence opposite the depot. It helps to give the town a better and impressive appearance to the great travelling public constantly passing through.

—Mine host Daggett is giving part of the first floor outside of the Bush House a new coat of paint which is an improvement as the walls and woodwork were pretty greasy and dirty. The office with its new coat of paint looks fine and is somewhat brighter in appearance the paint being a slightly lighter shade than the old.

—Robinson's show have billed this town for a show at Tyrone on the 7th of this month, we have been definitely informed that they expect to show here on the 23rd. The Barnum and Bailey Shows will be in Sunbury on the 9th and Williamsport on the 10th of June. The central part of Penna have five shows travelling through or billed in two weeks and they are all drawing good crowds.

—On Friday afternoon at 2:30 sharp the Academy ball team will engage in the hardest game of the season with the strong Bloomsburg Normal who defeated the Academy last Saturday by the score of 10-5. The Academy proposes to take sweet revenge on them for this defeat and will have their crack pitcher Sleppy in the box. If you want to see a great game go to the Athletic Field Friday afternoon.

—Mr. W. R. Brachbill has reroofed the workshop in the rear of his store with tin shingles replacing the wood shingles he had on before. It is an improvement in way of helping to prevent the spread of fires. If all property owners would consider that at the present time when the cost of shingling is nearly as great as tin or slate or much more than the good composition roofs that are fire proof, it would be a good thing. A town without a wood roof should have very low insurance rates as the chances of conflagrations would then be very small and that is one of the greatest elements in making the rates.

—Monday afternoon, about 3 o'clock fire destroyed the house occupied by Frank Meese located up Spring Creek, near what is known as the "Willows." Originated from one of the children playing with matches. Everything on the second floor consisting of beds, bed clothes and other furniture went up in the flames. A number of articles on first floor were gotten out; this house was one of the landmarks in that vicinity, and for that reason much regret has been expressed that it has been blotted out. Several years ago it came into the possession of W. G. Runkle, Esq., of Bellefonte, who recently had a new roof put on it and other improvements made There was $500 insurance but that will not cover the loss. Mr. Meese had no insurance.

Sexton Says Things To Preacher.

Rev. George Israel Browne, several years ago pastor of St. John's Episcopal church in this place, but now in charge of St. John's Episcopal church in Lancaster, had an unique experience with the sexton of his church a week or so ago, the result of which is that there is now a new sexton. The name of the deposed sexton was also George Brown and whether this was the cause or not, has not been revealed, but at any rate for some time past he displayed a very belligerent attitude toward the members of vestry of the church and particularly to ward Rev. Browne. The climax came recently when he locked the reverend in his own study and then proceeded to say things. In very plain language the sexton told the rector what he thought of him, and it was not until he had exhausted all the most expressive adjectives in his vocabulary that he desisted.

As Bellefontors know Rev. Browne is no small man and might have broken down the door but he didn't. He merely wrote down the most expressive things the sexton said and when the later finally opened the door he was asked to sign the paper. He did and thus ended his career as a sexton while Rev. Browne continues as pastor.

BASE BALL SCHEDULE.

As Adopted by the Central Pennsylvania League.

The official schedule of the Central Pennsylvania league as arranged by the schedule committee and adopted by the four clubs of the league, has been made public and is printed below.

The season opened on Monday May 31st, (Memorial day) Lock Haven playing at Jersey Shore both morning and afternoon. Renovo plays in Bellefonte in the afternoon of that day. Owing to the fact that Normal park was not available on the opening day, the first game will be played in Lock Haven Saturday, June 12th when they will have as their opponents Renovo.

The clubs of the league have all been permanently organized, officers elected and captains chosen. Local player have been selected in all the four towns, but in the roster are some fine players who border on the professional. The clubs it is hoped will be evenly matched, thus making the games doubly interesting. There is one thing assured, our people will have an opportunity of witnessing semi-professional ball during the season as the local club in addition to playing the schedule expects to go up against the strong independent clubs in this section.

LADIES OF THE MACCABEES.

Held a Reception and Installed Their Officers.

Bellefonte Hive of the Ladies of the Maccabees held an enjoyable social and the installation of their officers Friday evening, Mrs. Belle N. Doughty Deputy Grand Commander acting as the installing officer. The fine hall of the Knights of the Maccabees was tastefully decorated with flowers, and the ladies of the guard made an imposing appearance with the colors of the order, as they gave the beautiful figures of the drill, clearly demonstrating that they have worked well and faithfully since their organization.

A number of invited guests were present, several of the Sir Knights made some fine speeches along the worth of fraternal insurance. Dainty refreshments were served by the ladies. All united in declaring the new Hive of the Ladies of the Maccabees a success. They will meet regularly upon the first and third Thursday evening of each month in the Knights of the Maccabees Hall.

The Ladies of the Maccabees is the strongest fraternal order for women in the world, granting death, disability and sick benefits, and has adequate rates, based on the National Fraternal Congress table of Mortality. It has paid nearly seven million dollars in death and disability claims, and has the fine sum of three and one half million dollars in an Emergency fund, invested in U. S. Government bonds, and has a plan for a National Home for disabled members and orphans without extra tax upon its members. We wish they may write many thousands of dollars in the interest and protection of the homes in Bellefonte.
